

Laminate

Sophisticated high resistance laminates that are easy to clean and stable under UV light radiation, with matte plain colors with satin effect or matte surfaces with wood, marble or cement effect.

Our commitment to the environment reflects in the use of laminates products CARB2/US EPA certified made in Europe by leading companies.

Furthermore using the Ecological Panel, the world's first 100% recycled wooden piece, no cut trees are involved in the production.

The raw Ecological Panel is the result of the pressurization of diverse granularities wooden particles using resins. The outcome is a made in Italy environmentally-friendly product recycled and recyclable, result of a worldwide unique process able to combine advanced technology and absolute respect for the environment.

77 bianco / white

4 sabbia / sand

8 grigio tortora / dove grey

5 grigio ardesia / ardesia grey

12 marmo bianco fiorentino / florentine white marble

2 rovere naturale / natural oak

11 cemento / concrete

9 nero carbone / carbon black

1 noce / walnut

3 noce ardesia / ardesia walnut

Aluminium and steel

Sandblasted matte finishings obtained by melting powdered epoxy varnish on the metal at temperature of 180°. Thanks to this process, varnish penetrates deep into the cavities of the material to ensure perfect fixing and effective resistance.
